By clicking **Agree and pay** I confirm that I want to use Visa x-1111 for my current and future purchases with **Test Store**. I authorize **Test Store** to charge my PayPal account for such purchases and I instruct PayPal to pay such amounts. I understand this lets me check out faster by not having to log in to PayPal to complete my purchase. I understand that if I have a PayPal balance, that balance will be used first and that if my preferred payment method is expired or declined, PayPal will charge my backup payment method. I can change my preferred funding source or cancel this authorisation at any time in my PayPal Account. The payments will be treated by PayPal as Pre-Approved Payments as specified in the [PayPal User Agreement](#).
